

Prof. VIRGINIA CHAITIN

Institute for
Advanced Studies

SELECTED PUBLICATION

“Metabiology, Interdisciplinarity
and the Human Self-Image”

Publication Date: 2015

SHE HAS WORKED ON

- Metabiology, a metatheory of biological evolution.
- Her pluralistic and permeable epistemology based on non-isomorphic concept migration, with which she is able to encompass multiple forms of rationality and different systems of knowledge.
- Inter and transdisciplinary research methodology.
- Gifted education.
- Statistics and systems analysis.

Virginia Chaitin is a highly accomplished independent researcher born in 1963 in Rio de Janeiro, Brazil. With an unusually broad background, she moves freely between the exact sciences, philosophy and the humanities. Engaged in contemporary social transformation, she combined a professional career with motherhood in her fifties, and is currently a member of the International Steering Committee «Paul Feyerabend Centennial 2024» and a Washington DC Brazilian women's group for confronting gender and child abuse.
